About the Classes

A description of classes is on the CyberLynx website.

See http://cyberlynxoregon.org.

Bandon Library classes and labs are hands-on using our Sprague mobile classroom laptops. Bandon Library is a Wi-Fi hot spot. Bring your wireless laptop or use ours.

Drop-ins are welcome if space permits. We prefer to limit lab size to 3 students. However, **classes/labs with no registered or confirmed students will be canceled. We're sorry but drop-ins may find no instructor present. Check the online calendar's class description to see if any students are listed under "Registered."**

http://cyberlynxoregon.org/current.html

All registration is online or via phone. There's no longer a paper signup book in the library.

FREE COMPUTER CLASSES

January through March 2016

Register Online or By Phone

Come to a lab to get help with your computer problem, project or software. Look at the classes we offer to see the kinds of software our instructors can help you with. They include:

- Microsoft Windows 7, 8 and 10, and Office (Word, Excel, PowerPoint)
- Google Products: Search, extended Google features (like maps and translate), Google Apps (including Gmail, Google Calendar, Google Drive Overview, Google Docs, Spreadsheets, Presentations, & Forms)
- Using browsers (MS Internet Explorer & Edge, Firefox and Chrome),
- Google Picasa and Adobe Photoshop Elements. Let us know you'd like to use our **photo scanner** in a lab and we'll bring it.
- Some limited help with your smart phone or tablet, especially using *Library2Go* to download audio and ebooks from the library.
- Using WordPress to build your own website. Get coaching on how to integrate a website with social media.
- Skype & Hangouts for video conferencing.
- In **APPLE LABS**, help with your iPhone, iPad or other Apple device

We will provide help by appointment if you cannot attend the scheduled labs. We'll meet you at the Library at an agreed-upon time during Library business hours.
Call Bill at 541-290-8595 *to make an appointment.*
